

Construction Careers Opportunities

Please join us on Tuesday, February 13, 2024, from 10:00 a.m. to 1:00 p.m. at the West Los Angeles Veteran Administration Campus (Building B210). The campus is located at the Northwest corner of Wilshire Blvd. and Sepulveda Blvd.

Blois Construction, and their subcontractors, will be seeking additional workers to support their current construction activities on the West LA VA Building 402 L. P. Project. TransCal Services, LLC (TransCal) will serve as the Jobs Coordinator to help facilitate the hiring process. The Veteran's Administration is committed to providing life-changing career opportunities to deserving individuals. Special consideration will be given to Veterans and Local Residents (10-mile radius from job site). For more information, please contact us by email at: info@transcalservices.com or by phone at (323) 305-6470. Applicants will be considered for the following positions.

Laborer

Workers will perform the various physical tasks required on a construction site to complete projects on time. These tasks can range from cleaning up the site, digging trenches, building pipelines, and controlling traffic on road crews. Construction laborers also operate tools like jackhammers, various hand tools, and perform other related tasks.

Operator

Operators run various types of equipment on construction job sites such as excavators, backhoes, skid steers, rollers, loaders, etc. They operate these machines to dig, scrape, cut, move dirt, and load dump trucks. On this project, Operators will use these machines to dig trenches and to lay conduits or other pipelines.

Flagger

Flaggers must be able to stand for long periods, carry and lift equipment as needed. They must also know how to use electronic safety and traffic control devices. Good verbal communication skills are critical for providing directions and safety instructions. Familiarity with nonverbal communication methods such as hand signals, signs, and other devices is equally important. Flaggers will set up cones and maintain traffic patterns around construction sites. Strong interpersonal skills, which include the ability to greet drivers and pedestrians with a friendly outgoing manner and to interact with a diverse population, are also necessary. Flaggers should be able to conduct traffic control with little to no supervision during the course of the day.

Union Sponsorship

Blois Construction is a heavy civil contractor and has been involved in a broad range of projects — sewer, water, storm drain, concrete structures, treatment facilities, pump stations, etc. — in a variety of markets — commercial, industrial, school, infrastructure and residential in Southern California. Blois strives to hire the best people in all areas of their business.

New Apprentices

TransCal Services, LLC is a social enterprise business that provides professional assistance in the areas of recruitment, workforce development and labor compliance. We help jobseekers gain entry into rewarding and well-paying careers in the construction sector by leveraging projects that contain targeted worker hiring mandates.
